INDEX OF AUTHORS AND PAPERS

Aguilera-Granja, F. and Kikuchi, R., Polymer statistics. I. Phase separation in polymer solutions: A new statistical treatment 176 (1991) 514
Anderson, D.M. and Ström, P., Polymerized lyotropic liquid crystals as contact lens materials 176 (1991) 151
Ao, X., Wen, X. and Meyer, R.B., X-ray scattering from polymer nematic liquid crystals 176 (1991) 63
Appell, J., see Porte, G. 176 (1991) 168

Bartlett, P., see Pusey, P.N. 176 (1991) 16
Bassereau, P., see Porte, G. 176 (1991) 168
Bäuerle, D., see Kirichenko, N. 176 (1991) 534
Baus, M. and Lutsko, J.F., Statistical mechanical theories of freezing: were do we stand? 176 (1991) 28
Billard, I., see Porte, G. 176 (1991) 168
Bondarev, B.V., Quantum Markovian master equation for a system of identical particles interacting with a heat reservoir 176 (1991) 366
Brummelhuis, M.J.A.M. and Hilhorst, H.J., Covering of a finite lattice by a random walk 176 (1991) 387

Caglioti, E., see Marsili, M. 176 (1991) 463
Cates, M.E., The isotropic ("sponge") to lamellar transition in dilute surfactant systems 176 (1991) 187
Charvolin, J. and Sadoc, J.F., Lyotropic liquid crystals: the common skeleton of their phase diagrams 176 (1991) 138

Davidson, M.W., see Rill, R.L. 176 (1991) 87
Dekker, H., Multisite spin hopping analysis of multilevel dissipative quantum tunneling and coherence at finite temperatures. II. Weak coupling 176 (1991) 220
Delsanti, M., see Porte, G. 176 (1991) 168

Ezaki, H. and Shibata, F., Stochastic theory of a quasiparticle propagating in a dynamically fluctuating medium 176 (1991) 581

Feder, J., see Meakin, P. 176 (1991) 409
Fernández, A., Functional metastable structures in RNA replication 176 (1991) 499
Frenkel, D., Simulation of sub-molecular and supra-molecular fluids 176 (1991) 54

Gades, H. and Mitus, A.C., Local structures in computer-generated liquids and glasses: classification of three-dimensional patterns 176 (1991) 297

Hazoume, R.P., see Hounkonnou, N.M. 176 (1991) 569
Helgesen, G., see Skjeltorp, A.T. 176 (1991) 37
Hilhorst, H.J., see Brummelhuis, M.J.A.M. 176 (1991) 387

Hounkonnou, N.M., Ronveaux, A. and Hazoume, R.P., On steady state solution of nonlinear Kerr electric birefringence and polarization for ac and dc superimposed fields 176 (1991) 569

Jøssang, T., see Meakin, P. 176 (1991) 409
Jullien, R., see Pavlovitch, A. 176 (1991) 206

Kikuchi, R., see Aguilera-Granja, F. 176 (1991) 514
Kirichenko, N., Piglmayer, K. and Bäuerle, D., The role of internal degrees of freedom of molecules on reaction rates in laser-chemical processing 176 (1991) 534
Kuščer, I., Dissociation and recombination in an inhomogeneous gas 176 (1991) 542

Lekkerkerker, H.N.W., Ordering in supramolecular fluids (*introductory lecture*) 176 (1991) 1
Lekner, J., Summation of Coulomb fields in computer-simulated disordered systems 176 (1991) 485
